I understand the approval of the Association is required in advance to proceed. I also understand that the approval does not constitute approval of the local City/County building departments and that a Building Permit may be required. I agree to complete all proposed improvements promptly after receiving approval. I understand that any change in drainage and elevation must not negatively impact neighboring properties. I understand that any change in drainage and elevation may affect builder warranties and are not the responsibility of the HOA and must contact the builder directly for verification.

I have reviewed my Homeowner Handbook on the design guidelines.

**Approval time period can vary depending on your community. Please refer to your Governing Documents.*
